

CASE MANAGEMENT FOR FRONTLINE NONPROFITS

User Guide

How to sign in, find the people you serve, and do day-to-day casework in CaseLight — screen by screen.

1 Signing in

Every staff member has their own account — one person per login, so the history of who did what is meaningful.

The CaseLight sign-in screen.

Sign in with your email and password. Two extra protections may be available or required:

- ◆ **Multi-factor authentication (MFA)** — a one-time code from an authenticator app, with recovery codes.
- ◆ **Passkeys** — phishing-resistant sign-in (Face ID / Touch ID / a security key) via "**Sign in with a passkey.**"

Repeated failed sign-ins temporarily lock an account; it unlocks automatically after a set interval.

2 Roles at a glance

CaseLight shows the same records to everyone who's authorized, but presents them the way each role works — and limits what lower-privilege roles can see.

Role	Sees	Individuals view
Administrator	Everything; manages users, forms, programs, and security	Dense table
Strategic overviewer	Read-only overview across the org (standard-sensitivity data)	Dense table
Manager	The caseloads of the case workers they manage	Cards
Case worker	Only the clients assigned to them	Cards

Sensitive fields are gated further by **field-level sensitivity**: a role that can open a record still won't see fields marked above its clearance. See the Administrator Guide.

3 The dashboard

The landing page after sign-in summarizes the organization at a glance.

The resettlement dashboard.

- ◆ **Headline counts** — households, individuals, active program enrollments, and programs offered.
- ◆ **Active enrollments by program** — how many people are in Housing, Employment, Immigration/Legal, Education, Benefits, and so on.
- ◆ **Households** — each with its member count, and a link into the record.
- ◆ **Recent program activity** — the latest dated updates across the caseload.

4 Individuals & households

Every person is an **individual**, and every individual belongs to a **household**. Households are listed under **Households**; individuals under **Individuals**.

The households list – each links to its members.

The list adapts to your role

Administrators & strategic overviews get a dense, sortable table — name, case manager, gender/age, status, and program tags — with export and advanced search:

NAME	CASE MANAGER	GENDER / AGE	STATUS	PROGRAM STREAMS
Chidi Okonkwo	Wes Worker, Dev Admin	Male · 14 yrs 4 mos	Active	K-12 Education
Mamadou Diallo	Dev Admin	Male · 42 yrs 11 mos	Active	Housing · Benefits · Employment · Immigration / Legal
Yara Al-Rashid	Dev Admin	Female · 12 yrs 7 mos	Active	K-12 Education
Rosa Castillo	Dev Admin	Female · 68 yrs 8 mos	Active	Housing · Benefits · Employment · Immigration / Legal
Ibrahim Diallo	Dev Admin	Male · 16 yrs 5 mos	Active	K-12 Education
Ngozi Okonkwo	Wes Worker, Dev Admin	Female · 40 yrs 7 mos	Active	Employment · Immigration / Legal
Tariq Al-Rashid	Dev Admin	Male · 9 yrs 11 mos	Active	K-12 Education
Emeka Okonkwo	Wes Worker, Dev Admin	Male · 44 yrs 0 mos	Active	Housing · Benefits · Employment · Immigration / Legal
Kim Nguyen	Dev Admin	Female · 11 yrs 2 mos	Active	K-12 Education
Fatima Al-Rashid	Dev Admin	Female · 40 yrs 1 mo	Active	Employment · Immigration / Legal
Layal Haddad	Wes Worker, Dev Admin	Female · 33 yrs 10 mos	Active	Employment · Immigration / Legal
Linh Nguyen	Dev Admin	Female · 38 yrs 3 mos	Active	Housing · Benefits · Employment · Immigration / Legal
Joseph Mwangi	Dev Admin	Male · 35 yrs 5 mos	Active	Housing · Benefits · Employment · Immigration / Legal
Aissatou Diallo	Dev Admin	Female · 11 yrs 7 mos	Active	K-12 Education

The individuals table (administrator / strategic overview view).

Managers & case workers get a card per person, scoped to the caseload they carry:

The individuals cards (manager / case-worker view), scoped to the caseload.

5 The individual record

An individual's page brings the whole picture together.

The screenshot shows the CaseLight application interface. On the left is a dark sidebar with the CaseLight logo and a navigation menu. The main area displays the profile of 'Yusuf Hassan', marked as 'Active'. At the top, there's a header with the user's name, a 'cases-1 Male' tag, and fields for 'Code: 2000', 'Date of Birth: April 12, 1986', 'Age: 40 years 3 months', and 'State:'. Below this is a row of buttons: 'Open Resettlement Case', '1 Tasks', '0 Assessments', '0 Case Notes', 'Additional Forms', 'Add Form', 'Enrolled Program Streams', and 'Program Streams'. The 'About Individual' section contains a form with fields for 'HOUSEHOLDS', 'ADDRESS' (123 Olive St, San Luis Obispo, CA 93401), 'COUNTRY OF ORIGIN', 'SCHOOL NAME', 'SCHOOL GRADE' (0), 'RELEVANT REFERRAL INFORMATION', 'CASE MANAGER' (Wes Worker, Dev Admin), 'AGENCIES INVOLVED', and 'Accept/Reject' (Accepted). Below this is the 'Resettlement Case' section with an 'Edit' button and a 'Remove Client from Program' button. It contains a table with fields: 'Intake Date' (June 21, 2026), 'Household' (Hassan Family (DEMO)), 'Case Manager' (Dev Admin, Wes Worker), and 'Status' (Active). At the bottom, there's a section for 'Enrolled programs'.

An individual record – About, the household link, case managers, and the resettlement case.

- ◆ **About the individual** — code, date of birth, age, address, country of origin, school info, referral source, assigned case managers, and accept/reject status.
- ◆ **Household link** — one click to the household the person belongs to.
- ◆ **Resettlement case** — intake date, household, case managers, and status.
- ◆ **Action bar** — open the case, view Tasks, Assessments, Case Notes, add forms, and manage Program Streams.

6 Programs & enrollments

Programs are modeled as **program streams** — enrollable programs, each with its own form and recurring, date-stamped check-ins ("trackings").

A person's enrolled program streams.

Enroll an individual in one or more streams, then log dated trackings against each enrollment as the work progresses — so the history of the case is captured as it happens, not reconstructed later.

7 Case notes

Case notes are the running narrative of the work with a person — dated entries on the individual, visible to the staff authorized to see that record.

Case notes for an individual.

8 Assessments & domains

CaseLight includes a structured **assessment** engine: periodic, scored needs assessments across life **domains** — Health, Mental Health, Immigration Status, Personal Safety, Education, and more.

Assessment domains – each can carry its own sensitivity level.

The most protected domains (for example Mental Health or Immigration Status) can be marked so only appropriately cleared roles see them.

9 The calendar

Appointments, recertification dates, and program milestones appear on a shared calendar, scoped to the caseloads each staff member is allowed to see.

The shared calendar – month, week, and day views.

Click a day to schedule a task against a program, person, and domain.

Pilot data is synthetic only. Moving to real client records is a deliberate, separate decision — see **SECURITY.md** and the compliance program in **docs/compliance/**.
